

S696

The S696 is a low section tyre designed to replace the traditional double-tyre style. The special tread rubber design allows the tyre to run cool. Strengthened design improves driving safety.

Features & Benefits:

- Small grooves allow the tyre to run cool and provide better grip to improve skid resistance.
- Closed-shoulder design enhances tread wear resistance and effectively uneven wear.
- Zigzagged grooves reduce stone retention.
- Super wide running surface, shoulder design, and special tread formula improve tread life.
