

CITY CONVOY

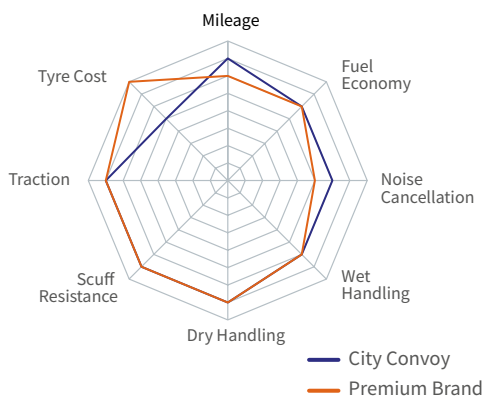

FEATURES & BENEFITS:

- The sidewall protector is designed to counter frequent damages from kerbs and other road hazards caused by the endless stops and starts for public transportation so to improve service life.
- Sipe design effectively increases contact area between the tread and road surface, which enhances grip and reduces skidding for greater driving safety.
- Shoulder notch design allows the tyre to run cool for better durability.
- Optimized tread pattern design to reduce tyre noise and improve driving comfort.

Cost Per 1000 KM

- High saving potential thanks to low costs per mileage
